

PIN SPORT PAINT (SPORT PAINTS LINE)

Technical information

DESCRIPTION

Emulsion paint based on acrylic resins, with a high level of resistance to abrasion and to the weather. Non-fading colours.

TECHNICAL CHARACTERISTICS

Nature: Acrylic
Colour: Red and green
Appearance: Matt
Density: 1.50 gr./cm³
Drying: 30 - 45 minutes
Diluent: Water
Application: Brush, roller, spray gun, airless gun
Performance: 6 - 8 m²/kg. and coat
Second coat: After 6 hours

APPLICATION

Due to its excellent durability and its exterior resistance and to abrasion, it is ideal for painting cement and concrete surfaces used for sporting activities: Tennis courts, pelota courts, etc.

INSTRUCTIONS FOR USE

- On new surfaces, remove dust and dirt and apply a first coat diluted by 25%. If the surface is very absorbent or has loose particles, prior use of a sellacryl type fixative is recommended.
- On surfaces already painted that are in good condition: Wash, sand to a smooth finish and then apply. If these are in poor condition then these must be totally removed.
- In general, it should not be applied at temperatures below 5° C and the containers should not be exposed to extreme temperatures.

SUBMITTALS

Metal containers of: 4 Litres; 15 Litres
