## **WATER-BASED ACRYLLIC SELLACRYL ANTI-MILDEW VARNISH**

### **Technical information**

---

#### **DESCRIPTION**

---

This is an acrylic resin based petrificating varnish extremely suitable for preparing porous surfaces with excellent fungicidal/algaecidal protection.

It stops moisture penetrating inside and eliminates moisture. It is used to seal walls, bricks, paintwork, etc.

#### **TECHNICAL CHARACTERISTICS**

---

Colour: Colourless.

Drying: 2 - 4 hrs.

Performance: 10 to 15 m<sup>2</sup>/litre approximately.

#### **INSTRUCTIONS FOR USE**

---

Can be applied by brush, roller or spray. If applied as a preparation it can be diluted to a ratio of 1:3 water. If used as a finish it can be applied directly or diluted by 10%.

Only use water to clean brushes or rollers.

#### **SUBMITTALS**

---

Plastic containers of: 1 Litre; 4 Litres; 10 Litres
