

SELLACRYL INTERIORS

Technical information

DESCRIPTION

Product recommended as sealer for surfaces that are very porous, especially plasters, be they the traditional type or projected plasters.

Its special composition eliminates unevenness in terms of absorption, which these materials have, when emulsion paints are applied.

TECHNICAL CHARACTERISTICS

Nature: Acrylic emulsion.

Appearance: Matt.

Specific weight: 1.30 gr./cm³.

pH: 9 ± 1

Application: Brush or spray gun.

Dilution and cleaning: Water.

Performance: Very variable (5 to 8 m²/l).

APPLICATION AND INSTRUCTIONS FOR USE

This product should be applied directly or slightly diluted with water; on new, clean and dry interior surfaces that are free from grease.

Do not apply below 7 °C.

Do not expose the container to extreme temperatures.

SUBMITTALS

Plastic containers of: 1 Litre; 4 Litres; 10 Litres
