## TIERRAS RODANTINAS

---

### Technical information

---

#### DESCRIPTION

---

Imitation Old Walls. Easy Application. Washable and transpirable, water based ecological decorative covering, made with natural pigments and resins

#### TECHNICAL CHARACTERISTICS

---

Colour: White  
Appearance: Matt  
Density: 1.03 gr./cm<sup>3</sup>  
Diluent: Water  
Dry: 3 - 4 hours  
Tinting: Tinturas or Jafep Tinting Machines  
Performance: 25-30 m2 per can.

#### APPLICATION

---

On plaster or gypsum supports that are clean, dry and free from dust and grease. If necessary apply Jafep Sellacryl sealer.

#### INSTRUCTION FOR USE

---

To achieve the effect the product can be applied straight from can (white) or tinted with our "Tinturas" colourants.

- I. Prime surface with diluted "Fondo Rodantino" or "Fondo Mate" undercoating. Apply one or two coats depending on absorption rate.
- II. To extend the content of "Tierras Rodantinas" use a brush. Give alternative strokes working with between 1 and 2 square metres at a time.
- III. After 4-10 minutes, obtain a smooth finish using a plastic flexible spatula.

Continue using these two last steps to complete all the surfaces area.

#### SUBMITTALS

---

Tierras Rodantinas: Plastic containers of: 2,5 L.  
Fondo Rodantino: Plastic containers of: 5 Kg
