

Ficha Técnica

CERASTUC Jafep.

Descripción

Water-based emulsion, as a gel, which is liquefied by mixing. Specially developed as a stucco protector. It provides excellent gloss finish, good resistance to abrasion and to water, and high flexibility. Good resistance to polishing.

Datos técnicos

Datos de identificación del producto

Color	Whitish
Naturaleza	Emulsion wax

Datos de aplicación del producto

Rendimiento	30-40 m ² / kg.
Diluyente	Water

Dónde aplicarlo

Stucco protector wax. It could be polished.

The practical spreading rate will depend on the actual dry film thickness, the nature of the substrate and the application

method.

Modo de empleo

Even if it is not common, in general it should be thinned down (till even 50%). Apply at least two coats and polish the last coat.

Formatos

Plastic packaging: 750 mL.
