

Ficha Técnica

TIERRAS RODANTINAS

Descripción

Imitation Old Walls. Easy Application. Washable and transpirable, water based ecological decorative covering, made with natural pigments and resins

Datos técnicos

Datos de identificación del producto

Color	White
Aspecto	Matt
Peso específico	1.03 gr./cm3

Datos de aplicación del producto

Rendimiento	25-30 m2 per can
Diluyente	Water
Secado	3 - 4 hours

Dónde aplicarlo

On plaster or gypsum supports that are clean, dry and free from dust and grease. If necessary apply Jafep Sellacryl sealer.

Modo de empleo

To achieve the effect the product can be applied straight from can (white) or tinted with our "Tinturas" colourants.

I. Prime surface with diluted "Fondo Rodantino" or "Fondo Mate" undercoating. Apply one or two coats depending on absorption rate.

II. To extend the content of "Tierras Rodantinas" use a brush. Give alternative strokes working with between 1 and 2 square metres at a time.

III. After 4-10 minutes, obtain a smooth finish using a plastic flexible spatula. Continue using these two last steps to complete all the surfaces area.

Formatos

Tierras Rodantinas: Plastic containers of: 2,5 L.

Fondo Rodantino: Plastic containers of: 5 Kg
