Datos técnicos

Datos de identificación del producto

Color	Colorless - yellowish
Aspecto	Liquid

Dónde aplicarlo

Walls, floors, tiles or tile joints in showers and bathrooms. It can also be applied to all types of coatings and painted walls on facades, bathrooms, kitchens, swimming pools, saunas or exterior tiles and wood.

Precauciones

- Read the product safety sheet carefully before handling.
- We recommend using eye protection and plastic gloves to avoid direct contact with the skin.

Modo de empleo

Spray the product from a distance of 5-10 cm over the entire surface and leave it to act for at least 15-20 minutes. To remove stains completely, it is recommended to rub with a sponge or brush.

On very dirty surfaces it is advisable to repeat the operation after 15 minutes.

Finally rinse with water to remove product residues.

We recommend using eye protection and plastic gloves to avoid direct contact with the skin.

Almacenamiento

- In its original closed container, at non-extreme temperature and humidity.
- Keep away from direct sunlight.

Formatos

Container: 750 ml
