

## Ficha Técnica

# Veladuras Jafep (Glazed Paint)

## Descripción

Water-based, acrylic product, low viscosity, very slow drying, to create patinas with various effects when applied on different backgrounds.

## Certificados de empresa

## Datos técnicos

### Datos de identificación del producto

Color	Colorless
Aspecto	Matt
Naturaleza	Acrylic copolymers

## Datos de aplicación del producto

Rendimiento	24 - 26 m <sup>2</sup> /L/Coat
Diluyente	Thinner for water-based paints and enamels
Repintado	12 - 24 hours
Secado	6 - 8 hours

## Prestaciones finales

Resistencia al frote en húmedo	2
--------------------------------	---

## Dónde aplicarlo

Basically there are two lines of application:

- 1 - On a granulated insulating undecoat base
- 2 - On a satin emulsion paint or water-based enamel. (Aural Satin or Acrimar Enamel)

## Precauciones

- Do not apply at temperatures below 5 °C or above 30 °C.
- Do not apply at risk of frost or rain.
- Do not apply in strong wind conditions or under direct sun.
- Avoid using different batches in the same cloth or, failing that, mix the current jar with the next one 50% to reduce the normal differences between batches.

## Modo de empleo

The use of different elements has given rise to different techniques, among which we can find:

**Buffering:** Dipping the tampon in the colored and very diluted product (50%) and discharge it. The surface is buffered, structuring the finish to taste.

**Sponging:** Prepared as before but giving slight turns of the wrist or small blows with the natural sponge.

**Brushing:** In this application with the brush we cross strokes or create circular effects.

Mopped. Suede Roller. And other techniques.

## Almacenamiento

- In its original closed container, at non-extreme temperature and humidity.
- Keep away from direct sunlight.
- Maximum recommended since manufacturing: 2 years.

## Formatos

Containers: 750 ml
